

Help Shape Resources for Families in Fairfax County

Join us for a **Dinner Focus Group**
Tuesday, March 21, 5:30 – 6:15 PM

At Formed Families Forward
4031 University Dr., Fairfax, VA 22030

Fairfax County's Children's Behavioral Health System of Care initiative has been asked to:

- develop an accurate, accessible and real time **database** of behavioral health care providers
- with **specific information** that includes: their availability, the insurance they take, their areas of expertise
- with functionality to **assist families in understanding behavioral health issues** and in **navigating the system** to access services

In this focus group, Fairfax County staff will specifically ask parents, caregivers and interested youth and young adults about what database information and resources would be helpful to them. Participants will be asked about what website features are best. Staff want to learn about any barriers and obstacles that families experience as they try to get their children mental health or substance abuse treatment services. **Your experiences and opinions matter!**

Dinner will be served during the focus group. RSVPs to Info@FormedFamiliesForward.org are not required but appreciated so we have enough food.

Questions about the focus group can be directed to Betty Petersilia, LCSW, Fairfax County Children's Behavioral Health System of Care,
Elizabeth.Petersilia@fairfaxcounty.gov.
