What is virtual therapy? How does it work?

Here Now

Who is a right fit for virtual therapy?

Here Now

How to make sessions work at home

Here Now

Getting your child started with virtual therapy

Why Here Now Health

Our clinical model: PATHS

Prioritized Access, Therapy, Healthcare, and Support

Trauma-informed & evidence-based care

Clinicians are trained in evidence-based trauma treatments for children impacted by child welfare.

Caregiver support as a cornerstone

Psycho-education helps caregivers respond to trauma effectively.

Beyond symptom reduction

Reducing symptoms while strengthening protective factors for long-term success.

Measurement-based care

Tracking goals and data so care stays responsive and personalized.
